LITIGATION FUNDERS

MEMBER OF THE ASSOCIATION OF LITIGATION FUNDERS
OF ENGLAND AND WALES

REDRESS SOLUTIONS

LITIGATION FUNDERS

Redress Solutions is one of the longest established and experienced litigation funders in the United Kingdom. We specialise in the funding of commercial and other high value claims.

Redress Solutions.

Our approach to client service is unique: swift and efficient claim selection procedures without bureaucracy. We operate with complete discretion.

WHO WE WORK WITH

We fund substantial cases for companies, partnerships and individuals.

We work directly with corporate finance and legal departments, claimants themselves and their officers and partners. We welcome cases introduced by lawyers, accountants and other professionals. We regularly work with insolvency practitioners who wish to pursue claims without exposure to the risks and expense of the case.

COMPANIES AND PARTNERSHIPS

Support from Redress Solutions sends a strong signal to the defendant that you are committed to litigating and have the financial ability to see your claim through to conclusion. Taking funding from Redress Solutions frees up your finances that could otherwise be trapped in litigation. We take the contingent liability of the adverse costs in losing a case off your balance sheet. A defendant will always know that if Redress Solutions funds a case it will have very strong merits and so may decide to settle quickly.

LAW AND ACCOUNTANCY FIRMS

The support of Redress Solutions allows you to concentrate on your work and not worry about getting paid. Redress Solutions always pays your bills promptly.

INSOLVENCY PRACTITIONERS

If you have selected a legal team to run your claim, Redress Solutions will always allow you to continue with them. If you so require, Redress Solutions will take an assignment of your claim. This will transfer all of the financial exposure and costs of the case to us and we will instruct the lawyers that you recommend.

THE CASES WE FUND

Our favoured cases are in document-based commercial litigation or arbitrations in Europe, the United States and other jurisdictions with reliable legal systems where the trial and any enforcement is to take place. Redress Solutions will consider funding for all types of commercial and other high value claims. In terms of the value of matters that we fund there is no upper limit. As to a minimum, we would normally focus on funding cases with a value higher than £0.5 million. We do not fund family, divorce or personal injury-related claims.

WORKING WITH REDRESS SOLUTIONS

We pride ourselves on our client service, which is fast, no-nonsense and without the bureaucracy you may find with other funders. We operate with complete discretion. Where we fund the litigation or arbitration of a claim, we receive an agreed percentage of the settlement or award, after all costs not recovered from the opponent have been reimbursed. We do not make management or expense charges of any kind to the clients on whose behalf we work. When a case is brought to us we make our own assessment of its merits, with or without the advice of external lawyers or other professionals. This is a process we pay for entirely and even if your case is not taken forward you will not be charged. We indemnify you against the opponent's costs on any matter we fund. You have no costs as a claimant and we take all the risks.

DISCREET, RESPONSIVE, EXPERIENCED

We are owned by family offices with considerable financial resources to fund your claim. No claim is too large or too complex for us to fund.

1. DISCUSSING A CASE WITH US

The first step, if you have a claim, is to contact us by email or telephone, or instead please ask your lawyer or accountant to do so on your behalf. You can expect an initial indication with regard to funding of your claim within two working days.

2. ESTABLISHING A CASE'S VIABILITY

Should we think it desirable for us to instruct an outside legal adviser or other expert to help us assess the merits of your case, we will do so at our cost. We will ask the lawyers conducting your case to estimate the likely cost of proceeding to trial. We will wish to establish that the intended defendant has the means to pay the sum being claimed and that the likely costs of funding are consistent with the size of the claim. In some insolvency cases, we will take an assignment of the claim from insolvency practitioners and conduct the litigation in our own name. If the case is seen as viable then Redress Solutions will be happy to fund your claim no matter how large or complex.

3. FORMALISING OUR RELATIONSHIP

Once we are satisfied that the case is viable, we will issue an offer to fund the case or, in certain insolvency cases, to take an assignment of the claim. Our offer will include the basis of calculating our share of funds recovered from the ensuing action upon success. Once our offer is agreed, we will ask you to sign an agreement, which sets out the terms of the offer as well as our general terms and conditions. The entire process is carried out with the least possible bureaucracy. Our aim is to have clear and simple lines of communication, not to tie you up in paperwork. You will be dealing directly with our senior team, all of whom are highly experienced in litigation funding.

4. CONDUCTING THE CASE

Where we provide funding to enable a claim to be litigated or arbitrated, it is the responsibility of the claimant's own legal team to handle the proceedings. In insolvency cases where we take an assignment of the claim, we will instruct the solicitors nominated by the insolvency practitioner to conduct the case.

5. ACCOUNTING FOR THE PROCEEDS

In any claim which we have funded, the claimant's law firm is bound by our agreement to bank any sum recovered in a trust account. All costs incurred are first reimbursed from the gross proceeds, after which Redress Solutions will be paid its share. These costs will not include the cost of assessing your case. When a successful outcome is achieved in a case litigated by Redress Solutions under an assignment from an insolvency practitioner, all costs incurred by Redress Solutions are first reimbursed from the gross proceeds. The insolvency practitioner is then remitted that portion of the net proceeds pre-established in our agreement, with Redress Solutions retaining the balance.

With Redress Solutions you will receive the best service of any litigation funder in the United Kingdom, you will face absolutely no risk and very likely see a significant settlement far sooner than if you had proceeded without our financial support.

**CHIEF EXECUTIVE
MARIUS NASTA, LL.M**

Marius, a solicitor who qualified with Slaughter and May, went on to set up and run the international legal, compliance and regulatory department of Cendant Corporation. This was a US listed conglomerate that comprised Avis Budget, Travelport, Realogy and Wyndham Worldwide. He is a General Counsel expert in running large, multi-jurisdictional and complex litigation cases and closing major corporate transactions. Marius is responsible for providing funding strategies for our corporate clients.

**MANAGING DIRECTOR
MICHAEL ZUCKERMAN, LL.B.,M.B.A**

Michael, a solicitor, has a wealth of experience in commercial litigation. As early as 1982, acting for joint liquidators, he was the first United Kingdom solicitor to obtain a freezing injunction against a Swiss bank account. Michael is involved in the assessment of cases offered to Redress Solutions and in supervising the entire litigation process to ensure the best possible outcome.

**FINANCE DIRECTOR
STEPHEN WISEMAN**

Stephen, a highly experienced business leader with an early background as a solicitor, focuses on the financial analysis of cases presented to Redress Solutions for funding.

**HEAD OF MARKETING
VIVIAN BAIRSTOW, FCA**

Vivian, a chartered accountant and licensed insolvency practitioner, is a Fellow of the Insolvency Practitioners' Association as well as a Fellow of the Association of Business Recovery Professionals. Vivian is responsible for all aspects of contacts with his fellow insolvency professionals on behalf of Redress Solutions.
